

ALC Lightweight Distribution Box

Preview

The LP-ALC-6422 represents the new generation of space-saving distribution boxes -- a 600x400x200 mm attached lid container designed to streamline every stage of your logistics flow. Secure Crocodile Lid -- Dual hinged flaps interlock precisely for protection and tamper control. The ALC are a popular choice for delivery companies as once empty they can be nested to save up to 75% space on the return journey. Plastic attached lid containers are some. Our conical postal and distribution boxes, specifically designed with sliding and lockable lid structure, comfortable handles, and ergonomic conical shape, cater not only to postal services, documentation, and document storage, but also to a wide range of industries such as logistics, supermarket. Attached lid containers (ALC's) or Tote Boxes, as they are also known, are a versatile and useful heavy duty box. They offer all the benefits of our stack/nest containers but with a useful lid.

Our Bulletin 898 DC Micro (M12) Distribution Boxes connect multiple devices to the control system and are a great way to increase flexibility and cut costs. They lower your labor costs by reducing
