According to low tension directive 2014/35/EU. Surface enclosures with a capacity of 4, 6, 8, 12, 18, 24, 36 and 54 modules with transparent window. Halogen-free plastic materials. Base and frame: ABS RAL 7035 grey. Transparent window: PC tinted window, with UV protection. After the packaging won a Sustainability Award last week, Lieferando will bring Huhtamaki 's cardboard delivery boxes coated in Xampla 's plant-based Morro material to the Austrian market. Suitable for a wide range of foods and dishes, the packaging features what has been described as the world's first plastic-free coating for takeaway containers. The Packaging Ordinance 2014 (VVO - Federal Law Gazette (BGBl) II no. 184/2014) transposes the Packaging Directive, specific provisions from the Waste Framework Directive and the Single-Use Plastics Directive into Austrian law. Supplementary requirements are set out in the Waste Management Act. Austria's packaging industry is renowned for combining technological innovation with eco-friendly practices.

The "Austrian Ecolabel" was created on the initiative of the Federal Ministry of Environment in 1990. This label provides the general public with information on the environmental impact of consumer goods

These eco-friendly boxes are made of 100% recycled content (96% post-consumer recycled) and can be recycled, reducing the environmental impact of packaging
