

Cable tray sample display stand price

Article Overview

Cable tray sample display stands typically start around \$72 per unit, with prices varying based on size, design, and bulk orders.

Cable tray sample display stands are specialized units designed to showcase cable trays, wires, or similar products in retail, trade shows, or industrial environments. On platforms like Alibaba, wire and cable sample stands are available starting at approximately \$72.4 per unit, with options for bulk purchases beginning from a single unit . These stands come in various designs, including compact countertop models, wall-mounted units, rotating multi-arm displays, and large freestanding stands, each catering to different space and display needs . Key features and considerations:

- o Compact stands: Ideal for small shops, retail counters, or trade show booths.
- o Wall-mounted stands: Save floor space and provide organized, eye-level access.
- o Rotating stands: Offer 360-degree viewing for interactive browsing.
- o Freestanding units: Suitable for large stores, distribution centers, or exhibitions. Pricing may vary depending on material, size, and customization, and additional costs may apply for shipping or taxes. For bulk orders, suppliers often provide discounts, and some stands can be customized with color-coded tags, labeling, or technical specifications to enhance product presentation . For more options, you can also explore marketplaces like Etsy or Amazon, which offer unique or custom display stands, though prices may fluctuate based on size, design, and seller . Overall, for a standard cable tray sample display stand, expect a starting price around \$70-75 per unit, with higher-end or customized models costing more depending on features and capacity.
