

Article Overview

Leading Canadian manufacturers of polymer and fiberglass cable trays include Superior Tray Systems, MP Husky, and Niedax CER, all offering CSA-approved, high-quality solutions for industrial and commercial applications.

Key Manufacturers

Superior Tray Systems Inc. is a top Canadian manufacturer providing a wide range of cable tray systems, including custom-engineered solutions for power, control, data, and telecom cables. Their products include ladder trays, solid bottom trays, perforated trays, and wire mesh trays suitable for sensitive fiber optics. Superior Tray emphasizes durability, flexibility, and compliance with CSA and UL standards, catering to both commercial and industrial projects . MP Husky specializes in fiberglass, steel, and aluminum cable tray systems. Their CSA-compliant trays are widely used across industries and meet or exceed NEMA, UL, and CTI standards. MP Husky focuses on providing robust, long-lasting solutions suitable for harsh environments, making them a reliable choice for polymer-based cable management . Niedax CER offers a comprehensive range of cable management systems, including cable ladders, basket trays, channel trays, and floor boxes. As part of the Niedax Group, they provide CSA-approved products and emphasize innovation, customization, and customer-focused solutions. Their polymer and composite trays are designed for infrastructure, IT, and energy sectors, with a strong focus on safety and quality .

Additional Considerations

When selecting a polymer cable tray manufacturer in Canada, consider:

- o Material and Durability: Fiberglass or polymer trays are ideal for corrosive or high-moisture environments.
- o Certifications: CSA and UL approvals ensure compliance with Canadian electrical safety standards.
- o Customization: Some manufacturers offer tailored solutions for specific project requirements, including tray size, load capacity, and environmental conditions.
- o Industry Applications: Manufacturers like Superior Tray and MP Husky serve construction, telecommunications, industrial, and energy sectors, providing versatile solutions for diverse needs . These manufacturers represent the leading options for high-quality, CSA-approved polymer cable trays in Canada, offering both standard and custom solutions to meet modern electrical infrastructure demands.
