Cyta announced on Wednesday (March 30) the start of operations on the ARSINOE optical fiber subsea cable system, which will cover the country's increased need for international connectivity in crucial areas, especially for Internet and Cloud services. Prerequisite for the provision of the service is the availability of the Cyta Fiber Network in your area. The installation charge for the Internet Business products with speeds up to 1Gbps is EUR58,00 and for the Internet Home2Gbps is EUR238,00. Our backbone network includes several regional and European Points of Connectivity and offers international extensions around the globe. This innovative technology provides Internet access at speeds of up to 2Gbps! By making one of the biggest-ever investments in telecommunications in Cyprus. Cytaglobal is the brand name of the International Wholesale Division of Cyta, the leading provider of integrated electronic communications in Cyprus.
