

Article Overview

OptiLink and Fiber Works & Communications (FWC) are leading suppliers of compatible, high-performance active optical cables in Lebanon.

OptiLink

OptiLink specializes in optical transceivers and fiber optic equipment with a focus on compatibility and energy efficiency. They provide a wide range of modules from 1G SFP to 400G QSFP-DD, all individually tested and pre-coded for plug-and-play compatibility with major brands such as Cisco, Arista, Juniper, Huawei, and MikroTik. Their products meet or exceed OEM specifications for signal integrity, temperature tolerance, and DDM accuracy, ensuring reliable and energy-efficient network performance. OptiLink also offers local support and fast delivery across Lebanon, making them a practical choice for ISPs, data centers, and enterprises .

Fiber Works & Communications (FWC)

FWC S.A.R.L. has a strong reputation in Lebanon for high-speed and wide-area network solutions. They supply European and American fiber optic products and provide system integration services for enterprise networks, OGERO, and the Ministry of Telecommunications. Their team of certified engineers ensures that all active optical cables and connectivity solutions are tested, reliable, and compatible with existing infrastructure, supporting energy-efficient network operations .

Additional Options

Other suppliers and distributors in Lebanon include companies listed on directories such as Kompass and 961Souq, which offer a variety of fiber optic cables and related components suitable for high-speed connectivity and low-latency applications . These platforms can be useful for comparing products, pricing, and availability.

Recommendation

For enterprise-grade, energy-efficient, and fully compatible active optical cables, OptiLink is highly recommended due to their rigorous testing, brand compatibility, and local support. FWC is also a strong option for projects requiring certified engineering support and integration with Lebanon's FTTX infrastructure. Both suppliers ensure that your network maintains high performance and reliability while minimizing energy consumption.
