Telecommunications operator Vodacom announced this Tuesday, August 15, the arrival of the first submarine fiber optic cable in northern Mozambique, guaranteeing that it will support the growth of the country's digital economy. The largest submarine cable system in the world, 2Africa, was officially launched on Tuesday, August 15th, in the city of Nacala-Porto, Nampula province. A data centre to which the fibre optic cable is connected was also officially opened in the same city by the project partner, Master Power. Among the several projects carried out by TELEVISA in Mozambique, which include the installation of more than 120,000 km of optical fiber and 5,000km of coaxial cable, it is important to mention the following:

- o Operation and maintenance of the telecommunication fixed public network all across the.
