

How much does a 4-port KVM switch cost

Article Overview

4-port KVM switches currently range from approximately \$40 to \$350 depending on features, connectivity, and brand.

Price Range and Options

- o **Budget Models:** Basic 4-port KVM switches with USB and HDMI or VGA support are available for around \$40-\$80. These typically allow control of four computers with a single keyboard, mouse, and monitor, but may have limited resolution support and fewer USB ports .
- o **Mid-Range Models:** Devices supporting 4K resolution, multiple USB 3.0 ports, and audio support are priced between \$100-\$200. Examples include HDMI KVM switches with 3 USB 3.0 ports for sharing peripherals like printers and external drives .
- o **High-End Models:** Professional or enterprise-grade KVM switches, such as DisplayPort or dual-monitor KVMs with MST hubs, 4K UHD support, and advanced switching features, can cost \$250-\$350 or more . These are ideal for IT environments or multi-device workstations requiring high video quality and reliability.

Key Features to Consider

- o **Connectivity:** USB is standard, while DisplayPort or HDMI may be required for high-resolution displays.
- o **Resolution Support:** Many modern 4-port KVM switches support up to 4K@60Hz, ensuring crisp display quality .
- o **USB Ports:** Some models include 3 or more USB 3.0 ports for sharing peripherals across multiple computers .
- o **Switching Method:** Options include button switching, hotkeys, or remote control, depending on the model .
- o **Compatibility:** Ensure the KVM switch supports your operating systems and connected devices.
