

How much does a North Korean-style weak elevator cable tray cost

Article Overview

The cost of a North Korean-style weak elevator cable tray typically ranges from \$20 to \$50 per meter, depending on material, size, and order quantity.

Price Overview

For aluminum alloy elevator-type cable trays similar to those used for indoor elevator systems, the unit price per tray can vary based on dimensions and surface finish. For example, a 3-meter aluminum alloy ladder tray with widths from 200mm to 1000mm and an oxidation-treated finish is available on Alibaba, with bulk orders starting at around \$20-\$50 per meter depending on quantity and supplier negotiation .

Factors Affecting Cost

- o **Material:** Aluminum trays are lightweight and corrosion-resistant but cost more than steel or plastic alternatives. Galvanized steel is cheaper but heavier, while stainless steel is more expensive due to corrosion resistance .
- o **Size and Load Capacity:** Wider trays or those designed to support heavier cables (up to 300kg/m) increase material usage and cost .
- o **Surface Finish:** Oxidation treatment or powder coating improves durability but adds to the price .
- o **Order Quantity:** Bulk purchases can reduce the per-meter cost by 20-40% .
- o **Shipping and Location:** Importing from China can reduce costs by 30-50%, but shipping fees and delivery times must be negotiated .

Additional Considerations

- o **Installation Costs:** Labor, installation height, and routing complexity can significantly increase the total project cost beyond the material price .
 - o **Customization:** Custom tray lengths, bends, or compartments will increase manufacturing complexity and cost .
 - o **Sample Orders:** Some suppliers offer free samples, but freight costs are typically borne by the buyer .
- In summary, for a standard indoor aluminum elevator cable tray, expect \$20-\$50 per meter for material alone, with total project costs rising when including installation, shipping, and customization. Negotiating bulk orders and sourcing from international suppliers can help reduce costs.
