

How to cut a cable tray box

Preview

Follow these steps to cut the stainless steel cable tray: 1. Begin cutting with slow, steady strokes if using a hacksaw, or carefully guide the power saw along the marked line. Measuring and marking: Accurate measurement and marking techniques for cable trays. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. As well as, learn about what's important to consider before you start cutting, what tools we recommend and after treatment of products.
