

How to dispose of the fiber optic cable after it s been installed

Preview

In order to recycle a fiber optic cable, you will need to cut it into small pieces and then separate the different types of materials. " Fiber is glass + plastics + strength members, and it often shows up on bulky spools--so it needs the right route, not a random scrap bin. Here's a detailed breakdown of how to safely manage them: Glass fibers are extremely small and sharp; they can easily penetrate the skin, eyes. Net Recycling can recycle all packaging and copper reel product and return your packaging to you, sanitized and ready for reuse. You'll hardly find metal and other recycling companies that take on these cables too. What are the key characteristics and advantages of fiber optic cables in terms of their construction, energy efficiency, lifespan, and disposal.
