Industrial Switch Industry Ranking

Preview

This report aims to provide a comprehensive presentation of the global market for Industrial Automation Switches, focusing on the total sales volume, sales revenue, price, key companies market share and ranking, together with an analysis of Industrial Automation. This report aims to provide a comprehensive presentation of the global market for Industrial Automation Switches, focusing on the total sales volume, sales revenue, price, key companies market share and ranking, together with an analysis of Industrial Automation. The global market for Industrial Automation Switches was estimated to be worth US$ million in 2023 and is forecast to a readjusted size of US$ million by 2030 with a CAGR of % during the forecast period 2024-2030. North American market for Industrial Automation Switches was valued at $ million in. The Industrial Network Switch Market Report is Segmented by Type (Managed Switches, Unmanaged Switches, and Smart/Web-Managed Switches), Port Count (2-8 Ports, 9-16 Ports, 17-24 Ports, 25-48 Ports, and More), Port Speed (Fast Ethernet 100 Mbps, and More), Poe Capability (PoE Switches, and Non-PoE. The Global Switches Market continues to expand steadily, with the Global Switches Market size valued at USD 29871. 12 Million in 2024, projected to reach USD 31071. 6 Million by 2035 at a strong. An industrial Ethernet switch is designed for reliability and durability in challenging environments. It differs from standard switches with its robust construction that resists shocks, vibrations, extreme temperatures, and dust. This switch also incorporates advanced features such as redundancy. Overview: Cisco is a global technology leader renowned for its cutting-edge networking solutions.

Industrial Ethernet Switch Market is predicted to grow at a 7.52% CAGR, reaching USD 8.44 Billion by 2035. Top

Control of the Industrial Switch Market remains predominantly with established global players such as Cisco,

Industrial Ethernet Switch Market Analysis by Mordor Intelligence The Industrial Ethernet Switch Market size is

Key Takeaways: Industrial Switch Market Global market valued at $12.5 billion in 2025 Expected to reach $24.43 billion by 2034 at

Top 10 Leading Companies in the Market Cisco Systems Overview: Cisco is a global technology leader renowned for

The Industrial Network Switch Market worth USD 4.20 billion in 2026 is growing at a CAGR of 7.40% to reach USD 6

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key

ARC Advisory Group''s recent research on the Industrial Ethernet Switches (IES) market reveals that there is significant transition as

Explore how advanced electric switches are driving home automation and industrial safety innovations.

The research insight on Switchgear industry highlights the prominent players in the market. Get known & unknown adjacencies

The Switches Market is evolving rapidly as industries shift toward compact, intelligent, and high-performance

With Industry 4.0 transforming global Product Typeion, over 65% of manufacturing plants are deploying IoT-enabled

Industrial Ethernet Switch Market Report 2026 Global Outlook - By Type (Managed Industrial Ethernet

Global Industrial Network Switch Market Overview And Scope: The Global Industrial Network Switch Market Report 2026 provides

Ethernet Switch Market Size The global ethernet switch market was valued at USD 51.9 billion in 2025. The market is expected to

The electric switch industry is driven by rapid urbanization and large-scale infrastructure development across residential, commercial,
