

Intelligent Manufacturer of Integrated Container Racks

Article Overview

Integrated Container Solutions (ICS) and Suhong Intelligent Storage are leading manufacturers of intelligent, integrated container racking systems, offering durable, automated, and customizable storage solutions.

Integrated Container Solutions (ICS)

ICS is a global leader in containerized storage solutions, specializing in designing, building, and delivering customized, integrated systems that are rugged, economical, and easy to deploy. Since 2008, ICS has focused on creating holistic systems where every component works seamlessly together, suitable for land, air, and sea transportation. Their container racks are designed for frequent deployment in austere environments, emphasizing durability, versatility, and safety, making them ideal for military, industrial, and logistics applications .

Suhong Intelligent Storage

Nanjing Suhong Intelligent Storage Equipment Co., Ltd., established in 2015, is a high-tech enterprise that manufactures intelligent warehousing systems and logistics equipment. Suhong provides heavy-duty racks, shuttle racking, cantilever racking, steel platforms, and automated storage systems. Their solutions integrate big data, robotics, and automated production lines to optimize warehouse space, improve operational efficiency, and support cold chain, manufacturing, and e-commerce logistics . Suhong also offers full-service support, including R&D, installation, commissioning, and after-sales service.

Other Notable Manufacturers

- o REB Storage Systems: Offers selective pallet racks, push-back racking, carton flow systems, and cantilever racking with automation options for high-density storage and efficient warehouse operations .
- o United Material Handling (UMH): Provides smart racking and automation solutions, including selective pallet racking, drive-in systems, push-back racking, and multi-level storage systems designed for scalability and high throughput .
- o Maxrac: Supplies industrial storage solutions such as radio shuttle racking, mezzanines, and automated warehouse systems, with a focus on high-quality steel construction and global distribution .

Key Features to Consider

- o Automation and Smart Integration: Systems that incorporate robotics, shuttles, or automated retrieval for efficiency.
- o Durability and Load Capacity: Heavy-duty steel construction for palletized or irregular goods.

Intelligent Manufacturer of Integrated Container Racks

- o Customization: Ability to design racks for specific container sizes, warehouse layouts, or transport requirements.
 - o Global Deployment: Manufacturers with experience in international logistics and containerized solutions.
- For businesses seeking intelligent, integrated container racks, ICS and Suhong stand out for their combination of customization, automation, and global service, while REB, UMH, and Maxrac provide additional options for specialized warehouse automation and high-density storage solutions.

Rakworx is a manufacturer of data center infrastructure. Integrated server cabinets, Power Distribution Units, All-In-One Cabinets

Innovative solutions for industrial applications and IT infrastructure, from versatile electrical enclosures and server

The digital transformation we will see in the next decade, including the rise of 5G, will take place mainly at the edge of the network.

Jracking is a trusted manufacturer of large-scale storage rack systems. Our products include pallet racking, cantilever racks, shuttle

Racking systems are key for efficient warehouse logistics. STILL is your one-stop supplier. Request a

REB specializes in the integration of turnkey storage solutions. Read our case studies to see real life examples of how REB has

As a comprehensive manufacturer of warehousing and logistics equipment, intelligent handling systems, and automated warehouse

To stay competitive and get ahead, you need to configure your facilities to perform different functions: storage, distribution, fulfillment

Trans-Rak International - innovative, sustainable vehicle racking systems for flexible in container car transport worldwide. Discover

Deploy custom data center rack integration solutions at cloud scale to meet your business requirements

With professional manufacturing experience, leading production equipment, excellent product quality, and honest business

Intelligent Manufacturer of Integrated Container Racks

Ensure efficient data center space utilization with reliable server racks and network cabinets. Vertiv(TM) offers innovative racks and

Hai Robotics provides racking solutions tailored to different operational requirements, balancing structural integrity, space utilization,

Why Choose BlueSkye Automation for Warehouse Racking Solutions? We offer integrated automated warehouse racking and

We pride ourselves on being a leading manufacturer of smart warehousing equipment and are committed to providing our customers

Pioneer of China's Intelligent Storage Industry Founded in 2008 in Dongguan -- China's manufacturing heartland -- Gieantech
