This document provides specifications for JXF series metal sheet distribution boxes manufactured by Zhejiang Farady Electric Co. The boxes are made of cold-rolled steel or stainless steel, have an IP55 rating, and come in various standard sizes from 200x200x150mm to. Low voltage distribution box-JXF series Overview JXF Series distribution box is a kind of distribution equipment with various control functions assembled based on the type, specification and quantity of components. As someone who's personally used these units, I've seen the difference high-quality design makes in performance and durability. Suitable for various buildings, industrial, and commercial settings, it enhances the reliability and safety of power systems.

Low voltage distribution box Description: JXF series distribution box is suited for operating in the circuit of AC 50Hz, rated operating voltage 500V and below, in

Key attributes Rated Voltage 400V,380V Rated Current 400A~10A Application Indoor IP Level IP65,IP54,IP44,IP42,IP41,IP40,IP32,IP31,IP30 Number of Sockets / Lock Type / Place of Origin

JXF is a kind of electrical control box, specifically, it is a kind of low-voltage distribution box. JXF distribution box is to assemble switchgear, measuring instruments and protective appliances in

Manufactured to meet international standards, the JXF Series caters to diverse markets globally. Its comprehensive design facilitates easy installation and maintenance, while its robust construction can

Key features: 1. The frame of the JXF low-voltage Switchgear is a combined structure, and the basic skeleton is assembled from C-shaped steel. All structural parts of the cabinet rack are galvanized,

Other attributes Place of Origin Zhejiang, China Application Industrial, electric power transmission Brand Name Supcon Model Number JXF Rated Voltage $\leq 0.4\text{KV}$ Rated Frequency 50Hz Rated Current

JXF distribution box is one of the main products of Wuxi Xiangdong Electric Technology Co., Ltd. With reliable quality, stable performance and reasonable price, it is well received. The manufacturer has

Product Overview and Features The JXF series power distribution box is a high-performance power distribution device designed and assembled specifically to meet the needs of various control

JXF small distribution box is a widely used device in low-voltage power systems, designed for the distribution and control of electrical energy. Suitable for various buildings, industrial, and commercial

Jxf distribution box model manufacturer

XJM meter boxes are divided into three series: surface-mounted, recessed, and weatherproof. Surface-mounted models are suitable for indoor installation; recessed models are designed for installation

JXF DistributionBox JXF series products are suitable for power, lighting and loop power distribution control, monitoring and metering protection in 50Hz~60Hz,

We're professional low voltage distribution box manufacturers and suppliers in China, specialized in providing excellent quality customized products. We warmly

JXF small distribution box is a widely used device in low-voltage power systems, designed for the distribution and control of electrical energy. Suitable for various

The JXF series distribution box offered by Bokong Electric is designed to provide a reliable and efficient solution for organizing and protecting electrical connections.

JXF Indoor/Outdoor Control Box The JXF control box is a customizable distribution box designed according to the model, specifications, and quantity of components to fulfill various control functions.

Metering control box for users such as residential buildings. This product complies with the requirements of GB7251.12-2013 "Low-voltage complete switchgear and control equipment", IEC60439-2:2011
