

Article Overview

Liscom Systems Ltd and CTC Fibre Optics Solutions are leading providers of fiber optic trenching and network installation services in Kenya.

Key Suppliers and Services

Liscom Systems Ltd offers comprehensive fiber optic solutions, including trenching, duct laying, backfilling, and civil works such as manholes, handholes, culverts, and stormwater drainage. They adhere to industry standards with trench depths of 1.2 meters and widths of 0.4 meters, and also provide fiber installation, testing, and maintenance services across Kenya. Their services cover FTTH, FTTB, long-haul, metro, LAN, and WAN networks. CTC Fibre Optics Solutions specializes in supplying fiber optic network equipment and supporting trenching and installation projects. They provide ADSS cables, connectors, pigtails, splicing machines, and other accessories, and are an authorized FiberHome distributor in Kenya. CTC supports ISPs and telcos in building and expanding FTTH, GPON, and EPON networks, offering both equipment and technical guidance for last-mile deployment.

Additional Notable Companies

Several other companies in Kenya provide fiber optic trenching and installation services:

- o Frontier Optical Networks (FON) Limited - Focuses on high-quality broadband solutions and international connectivity.
- o Soliton Telmec Limited - Specializes in metro fiber connectivity and FTTx solutions, including FTTH projects.
- o Astratel - Offers FTTH, FTTB, and FTTX installation and maintenance services for major clients like Safaricom and Telkom.
- o Genie Telecom Company Limited - Provides long-haul, metro, and FTTP/FTTH fiber installation across East Africa.
- o Vilcom Networks Limited - Offers high-speed fiber optic internet services and infrastructure deployment in Nairobi and nationwide.
- o SEACOM - Pan-African ICT provider with high-speed fiber connectivity and submarine cable infrastructure.

How to Choose a Supplier

When selecting a fiber optic trench supplier in Kenya, consider:

- o Experience and track record in trenching and fiber installation projects.

Kenya Fiber Optic Trench Supplier

- o Range of services, including civil works, duct laying, and network testing.
- o Equipment availability and authorized distribution for fiber optic components.
- o Compliance with standards for trench depth, width, and safety.
- o Support for FTTH/FTTB and long-haul projects, depending on your network requirements. These suppliers provide both civil and technical expertise, ensuring efficient deployment of fiber optic networks across Kenya.
