

Article Overview

Key manufacturers and service providers for indoor electrical distribution boxes in Madagascar include ENERTEC MADA, INECO, and Silicon Engineering Consultants.

ENERTEC MADA

ENERTEC MADA is a leading manufacturer and distributor of electromechanical and electrical transmission equipment in Madagascar and Africa. They specialize in R&D, manufacturing, and engineering services for electrical power technology, including distribution boards and components. Their solutions focus on safety, reliability, and compliance with international standards, making them a primary choice for turnkey energy projects and industrial electrical installations (ENERTEC MADA) .

INECO

INECO provides comprehensive electrical engineering and automation services, including the design, installation, and maintenance of electrical infrastructures. They offer custom solutions for energy transmission and distribution, which can include indoor distribution boxes for residential, commercial, and industrial projects. INECO also integrates renewable energy solutions and ensures compliance with international safety standards (INECO) .

Silicon Engineering Consultants

Silicon Engineering Consultants Pvt. Ltd offers custom electrical system design and engineering services in Madagascar. Their services include electrical load calculations, system design, and drafting of distribution boards. They provide detailed, error-free designs for residential, commercial, and industrial projects, ensuring that all electrical components, including indoor distribution boxes, are properly specified and integrated (Silicon Engineering Consultants) .

Additional Considerations

- o When selecting a manufacturer or service provider, consider project scale, compliance with local and international standards, and after-sales support.
- o Some companies may also provide BIM modeling and 2D drafting services, which help visualize the distribution box layout and integration into the overall electrical system.
- o For off-the-shelf consumer units or panels, international suppliers like Hydroelectric Ltd may also be considered for standardized products, though local customization may require collaboration with ENERTEC MADA or INECO (Hydroelectric) . These companies collectively cover design, manufacturing, and installation
