

Article Overview

Leading manufacturers of mesh cable trays and fixing equipment include Cablofil (Legrand), Spina Group, OBO CMS, Cable Tray Manufacturer, and Interflex USA.

Key Manufacturers and Offerings

Cablofil (Legrand) Cablofil is a global leader in cable management systems, offering wire mesh trays, ladder trays, prefab assemblies, fasteners, and accessories. Their products are designed for fast installation, high reliability, and safety in industrial and data center environments. Cablofil provides solutions for bridging tray gaps, supporting heavy electrical loads, and ensuring proper cable routing with modular components ready for immediate shipment . **Spina Group** Spina Group specializes in wire mesh cable trays with a focus on ventilation, cleanliness, and fast installation. Their systems are available in galvanized, stainless steel, or electro-zinc finishes and include straight elements, shelves, connectors, covers, floor supports, suspension brackets, wall shelves, and universal clips. These accessories allow flexible and safe assembly in industrial settings such as food processing, telecommunications, and oil & gas . **OBO CMS** OBO CMS provides mesh cable tray systems suitable for power and instrumentation cables. Their trays feature high load capacity, good ventilation, and modular design. The Magic connector system allows easy installation of bends, branches, and exits, and the trays can be mounted on walls, ceilings, or floors using various fixing methods . **Cable Tray Manufacturer** This company offers a wide range of wire mesh trays, cable ladders, and fixing systems. Their products include cable clamps, mechanical supports, racking systems, seismic bracing, and facade fixing systems, engineered to support heavy cable loads and ensure safety. They provide global certification and export to over 70 countries, making them suitable for large-scale industrial and commercial projects . **Interflex USA** Interflex USA manufactures wire basket, wire mesh, and sheet steel cable trays with a focus on durability, ventilation, and ease of installation. Their VIAFIL wire mesh trays feature self-coupling ends and inlaid fittings for rapid assembly. The company also offers high-resistance finishes for corrosion protection, making their trays suitable for demanding environments such as solar farms, water treatment plants, and food processing facilities .

Summary

These manufacturers provide comprehensive mesh cable tray systems along with fixing equipment such as brackets, suspension systems, connectors, and covers. They cater to diverse industries, ensuring modular, safe, and durable solutions for cable management. Depending on your project requirements, you can select from galvanized, stainless steel, or coated finishes, and choose suppliers with global reach and fast delivery options.

Mesh Cable Tray Fixing Equipment Manufacturer
