

Outdoor Cabinet Dimensions Table

Article Overview

Standard outdoor cabinet dimensions include base cabinets at 30" height and 24-28" depth, with wall cabinets ranging from 12" to 42" in height and 13.5" depth.

Standard Outdoor Cabinet Dimensions

Cabinet Type	Width Options	Height	Depth	Shelving	Notes
Base Cabinet	Incremental 3" widths starting at 9"	30" box + 4.5" leveling legs (standard) or 2" ADA legs	27" standard (drawers/doors 7/8" thick) or optional 24"	Full-depth adjustable shelf (24" depth) or half-depth (27" depth)	Adjustable leg levelers allow leveling on sloped surfaces; grill cabinets slightly deeper (27.75")
Wall Cabinet	Incremental 3" widths starting at 9"	24" high: 1 adjustable shelf; 30-36" high: 2 adjustable shelves; 42" high: 3 adjustable shelves	13.5" including doors	Adjustable shelves	Suitable for mounting above countertops; standard depth includes door thickness
Drawer Units	Varies by base cabinet width	30" box + leveling legs	27" or 24"	N/A	Full-extension, soft-close slides; made from HDPE or stainless steel
Grill Cabinets	Varies	30" box + leveling legs	27.75" including doors	Half-depth adjustable shelf	Designed to accommodate built-in grills; slightly deeper than standard base cabinets

Key Features

- o Materials: High-density polyethylene (HDPE) or stainless steel for durability and weather resistance.
- o Adjustability: Base cabinets include leveling legs to accommodate uneven outdoor surfaces.
- o Door and Drawer Hardware: Stainless steel hinges with 3-way adjustment, soft-close drawer glides, and magnetic closures.
- o Customization: Widths start at 9" and increase in 3" increments; optional finishes include powder-coated colors or woodgrain textures.
- o ADA Compliance: Optional 2" to 3.25" leg heights for accessibility. These dimensions provide a flexible framework for designing outdoor kitchens, storage areas, or standalone cabinets, ensuring compatibility with appliances, countertops, and outdoor layouts while maintaining durability and weather resistance .
