

Price of genuine galvanized cable trays in Singapore

Article Overview

Galvanized cable trays in Singapore typically cost between SGD 20 to SGD 80 per meter, depending on material, size, and load capacity.

Price Range and Factors

The cost of galvanized cable trays varies based on several factors:

- o **Material and Coating:** Hot-dipped galvanized (HDG) trays or GI (galvanized iron) trays are common. HDG trays are more corrosion-resistant and slightly more expensive than standard GI trays .
- o **Tray Type:** Ladder, perforated, or wire mesh trays have different manufacturing costs. Ladder trays generally cost more due to heavier construction .
- o **Load Capacity:** Light-duty trays (supporting smaller cable bundles) are cheaper, while medium and heavy-duty trays designed for industrial loads are more expensive .
- o **Size and Dimensions:** Wider and deeper trays that accommodate more cables cost more per meter .
- o **Supplier and Brand:** Prices vary between suppliers such as HardwareCity, AE Hub, Ferrotech, and NEXE, and bulk orders may attract discounts .

Typical Costs

- o Light-duty GI trays: SGD 20-35 per meter
- o Medium-duty HDG trays: SGD 35-55 per meter
- o Heavy-duty or large industrial trays: SGD 55-80+ per meter

Additional Considerations

- o **Installation:** Some suppliers offer pre-cut trays or accessories like covers and brackets, which may add to the total cost .
- o **Compliance:** Ensure trays meet local standards such as IEC, NEMA, or Singapore's SS249 for safety and durability .
- o **Delivery:** Many suppliers in Singapore provide next-day delivery for standard sizes, which can affect overall project cost . For precise pricing, it is recommended to request a quote from local suppliers like HardwareCity, AE Hub, Ferrotech, or NEXE, specifying the tray type, size, and quantity required .
