

Ranking of South Asian Optical Cable and Network Cable Manufacturers

Article Overview

Top South Asian optical and network cable manufacturers include Aksh Optifibre, Relemac Technologies, HFCL, Finolex Cables, and M-core Industries, recognized for quality, innovation, and regional market leadership.

Leading Manufacturers in India

- o Aksh Optifibre Limited - Established in 1994, Aksh Optifibre is a major player in optical fiber and fiber optic cables, producing both optical fibers and FRP rods in-house. Their products include aerial, duct, armored, and FTTH drop cables, meeting ITU-T standards, and they have a presence in 56 countries, making them a global leader in cost-effective fiber solutions .
- o Relemac Technologies Private Limited - Founded in 1993, Relemac offers a wide range of cables including single-mode and multimode fiber optic cables, LAN, coaxial, and armored options. They are ISO 9001:2015 and ISO 14001 certified and serve both domestic and export markets .
- o HFCL (Himachal Futuristic Communications Limited) - With over three decades of experience, HFCL provides optical fiber cables, broadband equipment, and network solutions. Their backward-integrated manufacturing ensures high-quality, cost-effective products for underground, aerial, microduct, and FTTH applications .
- o Finolex Cables - Established in 1958, Finolex specializes in optical fiber and electrical cables, with a strong distribution network across India. They focus on telecom and industrial applications, offering reliable and durable cable solutions .
- o M-core Industries Private Limited - A newer entrant founded in 2019, M-core Industries manufactures fiber optic, coaxial, CCTV, and networking cables. Despite its recent establishment, it has gained recognition for quality and timely delivery, serving banks, offices, and electronic industries .
- o Dron Edge India Private Limited - Founded in 2010, Dron Edge is known for optical fiber cables, joint closures, and network accessories, catering to telecom and IT infrastructure projects .
- o Aares Telecom (P) Ltd - Established in 1995, Aares Telecom manufactures fiber optic tools, OTDRs, and optical signal meters, providing customized solutions for telecom operators and large enterprises .

Regional and Global Context

While the above companies dominate the South Asian market, global leaders with significant operations in Asia include Prysmian Group, Corning, Fujikura, and Sumitomo Electric, which are involved in high-capacity fiber networks and 5G infrastructure projects . These companies influence technology standards and supply chains in the region.

Summary

Ranking of South Asian Optical Cable and Network Cable Manufacturers

The South Asian optical and network cable industry is led by Aksh Optifibre, Relemac, HFCL, Finolex, and M-core Industries, with each company distinguished by its product range, certifications, and market reach. Emerging players like Dron Edge and Aares Telecom complement the ecosystem, while global manufacturers maintain a strong presence in Asia, supporting advanced network infrastructure and high-speed connectivity projects .
