

Article Overview

Outdoor data center racks in Slovenia can be sourced through specialized providers, with pricing influenced by rack size, power density, and cooling requirements, and local rates among the lowest in Europe.

Quotation Services

For obtaining a custom price quote, Baxtel offers a free service to connect you with Slovenian data center providers. By submitting your technical requirements and project goals, you can receive multiple options tailored to your needs, including outdoor rack solutions. Baxtel negotiates on your behalf, leveraging market data and industry expertise, and their service is free to the client, with fees paid by the data center provider only if a match is made .

Market Context in Slovenia

Slovenia has a relatively small but growing data center market, with rack space rentals among the lowest in Europe, less than half of rates in Western European countries like Germany or the Netherlands . The market is supported by reliable power utilities and an established Internet Exchange (SIX), making it suitable for both medium-scale and incremental expansions . The largest facilities are around 1,500 m², and new space is added gradually, with annual growth of approximately 1,000 m² .

Rack Options and Pricing Considerations

When planning outdoor racks, consider the following factors:

- o Rack Size and Depth: Options like 4U106 (1.2 m deep) or 5U84 (1.0 m deep) provide capacities from 1.5 PB to 2.5 PB .
- o Power Density: High-density racks with multiple GPU or CPU nodes require careful planning for cooling and UPS sizing .
- o Cooling and Environmental Protection: Outdoor racks must include weatherproofing, airflow management, and possibly integrated cooling solutions.
- o Total Cost of Ownership (TCO): Includes rack hardware, power, cooling, and maintenance. Dense compute racks can optimize performance per watt and reduce TCO .

How to Proceed

- o Define Requirements: Number of racks, power density, cooling needs, and outdoor deployment specifications.
- o Request Quotes: Use Baxtel's Slovenia quote form to receive multiple vendor options .
