

Supply of optical cable pulling and threading machine price

Article Overview

Optical cable pulling and threading machines are available starting from around \$7,661, with various models suitable for different cable sizes and installation methods.

Price Range and Suppliers

- o Alibaba lists fiber optical cable threading machines starting at \$7,661 per unit, with bulk purchase options for wholesalers and distributors .
- o Made-in-China suppliers offer customized cable pullers and extrusion machines, with pricing dependent on cable size, pulling speed, and reel diameter. They provide tailored quotations based on technical specifications .
- o Linemen-Tools.com offers portable fiber optic cable pullers with electric, gas, or hydraulic power options, featuring capstans of 32" or 42" and pulling forces up to 1,250 lbs .
- o Hanyu Power provides optical cable traction machines suitable for 4-288 core cables, capable of overhead, buried, or duct installations, emphasizing efficiency and reduced labor costs .

Machine Types and Features

- o Threading Machines: Designed for high-speed cable transmission, ideal for long-distance installations in ducts or tunnels. They typically include an electric motor, gearbox, and transmission device for smooth cable retraction and release .
- o Cable Pullers: Can be gas, electric, or hydraulic powered. Features include adjustable capstans, torque limiters, and portability for field use. Suitable for fiber optic cables requiring minimum bend radius compliance .
- o Traction Machines: Provide high tensile force equivalent to 4-5 adults, support overhead or buried cable laying, and reduce manual labor. They often include support rods to stabilize the cable during operation .

Considerations for Purchase

- o Cable Specifications: Core count, diameter, sheath material, and thickness affect machine selection and pricing .
- o Installation Environment: Machines vary for overhead, buried, or duct installations. Traction machines are preferred for long-distance or large-section cables .
- o Power Source: Electric, gas, or hydraulic options are available depending on portability and site requirements .
- o Customization: Many suppliers offer tailored solutions based on cable type, pulling speed, and reel size . For procurement, it is recommended to contact suppliers directly with detailed cable specifications to receive
