

Article Overview

Wire mesh (basket) cable trays in Switzerland are the most affordable type, typically ranging from \$2 to \$25 per meter depending on material, size, and finish.

Price Overview

Wire mesh cable trays, also known as basket trays, are made of fine steel wire welded into a tray. They are lightweight, easy to cut, and ideal for small cables in offices or data centers. In Switzerland, suppliers like Jeetmull Jaichandlall and Distrelec offer high-quality mesh trays tailored to industrial and commercial needs .

- o Pre-Galvanized Steel (PG): Most affordable, suitable for dry indoor areas such as offices and schools. Prices start around \$2-\$5 per meter .
- o Hot-Dip Galvanized Steel (HDG): More durable, ideal for outdoor or industrial environments. Prices typically range from \$10-\$20 per meter .
- o Aluminum Mesh Trays: Lightweight and corrosion-resistant, but more expensive, generally \$20-\$25 per meter .

Factors Affecting Cost

- o Material Type: Steel is cheapest, aluminum is more expensive, and stainless steel (if used) is the highest cost.
- o Tray Dimensions: Wider or taller trays require more material, increasing the price.
- o Surface Finish: Coatings like HDG or powder coating add to durability and cost.
- o Order Quantity: Bulk orders can reduce per-meter cost by 20-40%.
- o Installation and Accessories: Fittings, brackets, and labor can significantly affect total project cost .

Practical Considerations

- o Wire mesh trays are ideal for lightweight cabling and areas requiring ventilation.
- o They reduce installation time compared to conduit systems, potentially saving 40-60% of project labor costs .
- o For large-scale projects, requesting a custom quotation from Swiss suppliers ensures accurate pricing based on tray length, material, and finish . In summary, Swiss mesh cable trays offer a cost-effective solution for light cabling, with prices varying mainly by material, coating, and order size. For precise project budgeting, contacting local suppliers for a detailed quote is recommended.
