

Article Overview

Tanelec Limited and Thornlux International are leading providers of grid-connected distribution equipment in Tanzania.

Tanelec Limited

Tanelec Limited, headquartered in Arusha, Tanzania, is a prominent manufacturer of distribution transformers, power transformers, electrical switchgear, and metering units for East and Central Africa . The company produces distribution transformers up to 36 kV, with ratings ranging from 5 kVA to 20,000 kVA, and has an annual manufacturing capacity of 14,000 units. Tanelec also offers refurbishment and repair services, capable of handling up to 500 transformers per month. The company is ISO 9001:2015 and ISO 14001:2015 certified, ensuring compliance with international quality and environmental standards. Tanelec serves both utility companies and private sector clients, providing complete power distribution solutions including conductors and cables.

Thornlux International

Thornlux International, based in Dar es Salaam, Tanzania, specializes in high-capacity power solutions, including custom panel assembly, generators, smart energy management systems, and specialized switchgear . The company supplies UPS systems, voltage stabilizers (10 KVA to 5000 KVA), and generators (10 KVA to 3000 KVA), designed by internationally certified engineers. Thornlux partners with global manufacturers to ensure compliance with international safety and reliability standards, making it suitable for industrial, commercial, and utility-scale grid-connected projects. They also provide maintenance and smart energy management solutions to optimize efficiency and sustainability.

Additional Context

While TANESCO is the main utility operating Tanzania's national grid, private manufacturers like Tanelec and Thornlux provide the necessary distribution equipment and services to support grid expansion and industrial electrification . These companies are capable of supplying customized distribution boxes and switchgear for both new installations and refurbishment projects. For sourcing grid-connected distribution boxes in Tanzania, Tanelec Limited is ideal for transformer-focused solutions, while Thornlux International offers broader electrical distribution and smart energy management systems. Both companies have a strong regional presence and experience in serving utility and industrial clients.
