

Venezuelan Color Steel Cable Tray Price Inquiry

Article Overview

The cost of Venezuelan color steel cable trays typically ranges from \$10 to \$30 per meter, depending on material, coating, and order quantity.

Cable tray prices vary based on several factors, including the type of steel, surface finish, size, and supplier margins. Steel trays generally cost between \$10 and \$30 per meter, while aluminum trays are higher, ranging from \$20 to \$50 per meter. Color-coated steel trays, which include powder-coated finishes for corrosion resistance and aesthetic purposes, may fall at the higher end of this range due to the added coating process and durability benefits (Apex Tray) . Material and coating impact:

- o Galvanized steel is common and cost-effective, balancing durability and price.
- o Stainless steel resists corrosion but is more expensive.
- o Powder-coated or color-coated steel adds protection and visual appeal, increasing the price per meter. Bulk orders can reduce the per-meter cost, and suppliers in Venezuela may offer competitive pricing for large projects. For industrial or commercial use, prices may also include shipping, installation, and labor costs, which can vary regionally . Tips for cost management:
- o Compare multiple suppliers, including Venezuelan distributors listed on B2B platforms.
- o Consider alternative tray types, such as perforated or wire mesh trays, which can be 15% cheaper if heavy load capacity is not required.
- o Negotiate long-term supply contracts for large projects to secure better pricing . In summary, for Venezuelan color steel cable trays, expect a price range of approximately \$10-\$30 per meter, with higher costs for stainless steel or custom color coatings, and potential savings for bulk purchases or alternative tray designs.
