

What to do if light leaks through the network cabinet door

Preview

Seal gaps with weatherstripping or door sweeps to reduce unwanted light. Adjust door alignment or install blackout curtains for effective solutions. Assessing light leaks is a crucial step if you're determined to prevent light from sneaking through your door. Visible light filtering through a closed door indicates the door system is compromised, signaling potential energy loss, drafts, and security vulnerabilities. Here are some easy ways to block the light that won't disturb anyone else.
