

Where can I find cable duct and cable tray manufacturers

Article Overview

Leading manufacturers of cable ducts and trays include Armorduct Systems, Metsec, Mulder-Hardenberg, Cableduct, and global suppliers like Atkore International.

UK-Based Manufacturers

Armorduct Systems Ltd specializes in steel cable management systems, including cable trunking, trays, baskets, floor boxes, and power tracks. They offer both standard and bespoke solutions designed and manufactured in-house, suitable for industrial and commercial applications. Metsec provides a wide range of cable tray systems, from 12mm to 50mm deep and 50mm to 900mm wide, in materials such as mild steel (pre-galvanized or hot-dip galvanized) and stainless steel (316L). Their products conform to BS EN 61537 standards and include accessories for bends, tees, and connectors. Metsec also offers CAD design services and bespoke manufacturing. Cableduct Limited focuses on elegant, bespoke cable management solutions, including floor boxes and containment systems. Their products are hand-finished in the UK and designed for both aesthetic and functional integration in commercial, residential, and heritage buildings. Mulder-Hardenberg offers the DEFEM wire cable tray system, ideal for data centers, server rooms, and industrial automation. Their mesh trays provide corrosion resistance, easy cleaning, and compliance with safety standards like DNV certification. The system reduces installation time and material costs while supporting complex infrastructures.

Global Suppliers

Atkore International is a major global manufacturer of cable trays and cable management systems, offering galvanized, stainless steel, waterproof, and fiberglass trays. They provide both standard and custom roll-formed solutions suitable for industrial, commercial, and infrastructure projects worldwide.

Key Considerations

- o Material and Finish: Steel, stainless steel, fiberglass, and galvanized options depending on environment and load requirements.
- o Tray Type: Ladder, mesh, solid-bottom, or wire trays for different cable protection and ventilation needs.
- o Certifications: Compliance with standards like BS EN 61537 or DNV ensures safety and reliability.
- o Customization: Many manufacturers offer bespoke solutions, CAD design support, and prototype approval.
- o Applications: Industrial automation, data centers, commercial buildings, infrastructure projects, and hygienic environments like food processing. These manufacturers provide a range of solutions to meet both standard and specialized cable management requirements, ensuring safety, efficiency, and durability in various industrial and commercial settings.

Where can I find cable duct and cable tray manufacturers

593 suppliers for cable tray Manufacturer/Producer Find wholesalers and contact them directly B2B marketplace Find companies now!
