Featuring a clear cover or panel, these boxes allow for real-time visual inspection of internal components--such as circuit breakers, wiring, and indicators--without requiring the enclosure to be opened. There are many options when it comes to MCB or MCCB cases, all designed to protect the device and keep it safe. These covers allow a clear view of the panel's contents, reducing the need to open the cover during inspection, thus ensuring both. A transparent panel distribution box is an advanced electrical enclosure designed to provide secure, organized, and easily monitorable power distribution. Built from durable ABS plastic with a clear lid, this IP65-rated breaker box safeguards against dust, water, and impact damage. Compact yet versatile, it includes a DIN rail and mounting brackets for quick installation.
